Relevant Experience

Front-End Programmer, **Brooklyn Food House** Sep 2023

- I led the conversion of the Figma design into code and the implementation of features for a prestigious restaurant.
- I created a seamless and elegant experience for customers, developing a highly functional digital menu with pagination capabilities for easy page navigation.
- I collaborated closely with the team to ensure a seamless integration of the digital menu into the restaurant environment, enabling a smooth transition to a more modern and technologically advanced customer experience.

Education

Oracle Next Education Front-End (Bootcamp) Abr 2023 - Oct 2023

- **Certificate:** Front-End Developer (<https://app.aluracursos.com/certificate>).
- **Programming CourseWork:** ReactJS, CRUD with asynchronous JavaScript, Styled Components.

Selected Projects

Personal Website: www.thefabi8a.dev (for additional information and projects)

Map Peek (<https://map-peek.vercel.app/>)

- Consumption of an API with data from over 250 countries, which were organized into cards and allows filtering by names (official and common) and their regions.
- It allows toggling between the country's flag and coat of arms.
- Utilized: ReactJS, NextUI, Tailwindcss, Framer Motion.

Octo Stylist (<https://octo-stylist.vercel.app/>)

- GitHub API consumption to display user data on one card and in another section, cards for the top 10 repositories with the most stars.
- It allows customization of the card through a menu in which you can edit colors and upload your own image for the card banner.
- Allows downloading the card in .png format.Utilized: ReactJS, NextUI, Tailwindcss, Framer Motion.
- Utilized: ReactJS, NextUI, Tailwindcss, Framer Motion.

Skills

- **Programming Languages:** JavaScript, HTML, CSS.
- **Libraries and Frameworks:** React, Tailwindcss, Styled Components.
- **Tools and Platforms:** Git, GitHub, Netlify, Vercel, Figma, VSCode, GitKraken.
